OIT 7001-86

14 JAN 1986

MEMORANDUM FOR: Deputy Director of Logistics

FROM: Edward J. Maloney
Deputy Director of Information Technology

SUBJECT: MSA Software to Meet LIMS Requirements

REFERENCE: Your memo, same subj, dtd 24 Dec 85 (OL 4253-85)

I concur with your proposal outlined in the reference. I believe this action represents an excellent beginning for a new LIMS which utilizes marketplace solutions where applicable. I look forward to a joint effort assessing the cost of providing an MSA-IDMS/R solution for LIMS. [redacted] will be the OIT focal point for this effort. He can be reached on [redacted] secure.

[redacted]

Edward J. Maloney

MEMORANDUM FOR: Deputy Director of Information Technology

25X1 FROM:

[REDACTED]
Deputy Director of Logistics

25X1 SUBJECT: MSA Software to Meet LIMS Requirements [REDACTED]

Ed:
1. After our meeting on 17 December, I discussed three options for the Office of Logistics (OL) regarding commercially available software with the Director of Logistics (D/L). These options are: (1) do nothing and wait for the development of Cullinet packages; (2) test one Management Science America (MSA) software applications package with a Cullinet package in an Integrated Database Management System (IDMS-R) environment; or (3) work with three MSA packages and a Cullinet package in an IDMS-R environment. [REDACTED]

25X1 2. I advised the D/L that in my opinion no one in the Agency has sufficient information on commercially available software applications packages or on the IDMS-R to make reasonably sound judgments as to the future direction we collectively should take. [REDACTED]

25X1 3. Per our conversation, in order for the Agency to obtain necessary information in this area, [REDACTED] has been tasked with identifying sites which are currently using MSA and Cullinet packages in an IDMS-R environment as well as sites using MSA packages on an IDMS-R. Ken will arrange for you and others to visit these sites. [REDACTED]

25X1 4. I suspect that the Agency will need additional information beyond that which can be gained from the above site visitations. Toward this end, it is proposed that we acquire three MSA software packages to support supply, procurement, and vendor payment functions and to install the packages at an unclassified non-Agency site where their capabilities may be more accurately assessed. [REDACTED]

CONFIDENTIAL

25X1 SUBJECT: MSA Software to Meet LIMS Requirements 

5. Your concurrence and cooperation in the above proposal are requested. With your concurrence, we will fund actions to acquire the software, off-site facilities, and necessary contractor support.  will be the focal point within OL for this effort. He can be reached on extension 8131 (black) or 330731 (secure).
